

Fujitsu Technology Solutions

Software License Agreement for End Users

PLEASE READ THE FOLLOWING SOFTWARE LICENSE AGREEMENT FOR END USERS CAREFULLY BEFORE DOWNLOADING, INSTALLING OR USING THE SOFTWARE. THESE TERMS AND CONDITIONS CONSTITUTE A LEGAL AGREEMENT BETWEEN YOU AND FUJITSU TECHNOLOGY SOLUTIONS GMBH.

FUJITSU TECHNOLOGY SOLUTIONS GMBH (HEREINAFTER "FUJITSU") IS WILLING TO LICENSE THE SOFTWARE DEFINED IN SECTION 1 BELOW ONLY ON THE CONDITION THAT YOU ACCEPT ALL OF THE TERMS CONTAINED IN THIS SOFTWARE LICENSE AGREEMENT FOR END USERS (HEREINAFTER "AGREEMENT").

IF YOU ARE AGREEING TO THIS AGREEMENT ON BEHALF OF AN ENTITY (RATHER THAN AS AN INDIVIDUAL HUMAN BEING), YOU REPRESENT THAT YOU HAVE THE APPROPRIATE AUTHORITY TO ACCEPT THE FOLLOWING TERMS ON BEHALF OF SUCH ENTITY.

1. Subject of this Agreement

1.1 For the purposes of this Agreement "Software" shall mean the software or firmware in object code form or as script code in the version as provided to you by Fujitsu and substantially as described in the software product data sheet of Fujitsu. However, such description is not a contractual guarantee in relation to the quality and other characteristics of the Software according to law. You acknowledge that it is not possible according to the state of the art to develop error-free software and that therefore you are not entitled to receive an error-free Software. The Software consists of machine-readable instructions and related material, including without limitation documentation, in printed and/or electronic form.

1.2 The Software is protected by copyrights and other intellectual property rights owned by Fujitsu and/or its third-party licensors. You are not permitted to use the Software except as provided under this Agreement. In addition, any use of the Software requires the proper payment of the applicable license fees, if any.

1.3 By installing, copying, or otherwise using the Software you agree to be bound by the terms of this Agreement. If you do not agree with the license terms of this Agreement, you are not permitted to install, copy, or otherwise use the Software and must immediately return all copies of the Software and all accompanying items to the licensor/sublicensor (either Fujitsu or the reseller who supplied you with the Software) with proof of purchase for a full refund.

1.4 Fujitsu reserves the right to implement at any time in the future an additional software license key and/or license certificates as countermeasures against software piracy.

1.5 Software components from third-party software suppliers or open source software which are part of the scope of the delivery are subject to separate license agreements that are included with the Software or that are transmitted by Fujitsu upon request.

2. End User License

2.1 In consideration of your agreement to the license terms of this Agreement and conditional upon your compliance therewith, Fujitsu grants you a limited, non-exclusive and non-transferable license to install and use the Software on the number of computers for which you have purchased licenses. Unless you purchase additional licenses, you are not permitted to operate the Software on more than the maximum number of licensed computers or on hardware that exceeds the specified type.

You are permitted to make a backup copy of the Software for archiving purposes, provided you properly mark the copy or partial copy of the Software with the copyright notice and any other ownership information.

2.2 You are not permitted

- to copy (except for backup or installation purposes within the scope of this Agreement), modify or distribute the Software or parts of the Software,
- to decompile, disassemble, decrypt, deobfuscate, extract or otherwise reverse engineer the Software or parts of the Software, or
- to sub-license, without selling the related hardware, assign, rent, lease or transfer the rights in the Software or in parts of the Software granted under this Agreement

except as expressly permitted by this Agreement or due to mandatory legal regulations.

2.3 If you acquired the Software as a program upgrade, your license for the use of the old software version ends automatically with the installation of the upgrade version of the Software. If parts of the old software version are not replaced by the upgrade version, the license for the old version continues to be effective until the remnants of the old software version are also replaced or deactivated or shut down in any other way.

2.4 Unless specified in writing otherwise by Fujitsu, the license for a software version or release does not give you any rights to new releases (updates), new versions (upgrades) or technical support services for the Software. Supplemental software support contracts and maintenance services, including or excluding new releases and new versions and additional technical support services, can be purchased separately either from Fujitsu directly or from authorized software resellers.

3. Downloading

3.1 For Software supplied by Fujitsu over a network or a similar distribution path, the following additional conditions shall apply: All products supplied for downloading by Fujitsu are selected with due care, made available and, if supplied by third parties, provided without modification. However, you are fully responsible for ensuring the most current version and usability of downloadable material for your own purposes and on your own system. You download Software at your own risk. Fujitsu will not accept any liability, particularly not for transmission errors or problems that arise during the downloading process (line failures, connection interruptions, server failures, data corruption, etc.).

3.2 The website of Fujitsu is operated and administered only for those countries in which Fujitsu has one or more offices. Fujitsu accepts no responsibility that the Software can or may be downloaded from a Fujitsu website also in locations other than the countries mentioned above. If you access a website of Fujitsu from abroad, you are fully responsible for complying with any local regulations. Fujitsu expressly prohibits the downloading of the Software from a Fujitsu website in countries where such downloading is considered illegal.

4. Copyright and Trademarks

4.1 All rights and licenses, unless they are expressly granted to you in this Agreement, as well as all property and usage rights related to the Software or parts of the Software remain fully with Fujitsu and/or its third-party licensors.

4.2 The license terms of this Agreement do not authorize you to use the brands, logos or trademarks of Fujitsu or its third-party licensors, including, but not limited to, the term "Fujitsu" and the Fujitsu logo, nor are you permitted to use any other brands which are deceptively similar to the brands, logos or trademarks of Fujitsu or its third-party licensors. Each and any use of brands, logos or trademarks with respect to the Software or Fujitsu requires the express consent of Fujitsu or its third-party licensors except as permitted due to mandatory legal regulations.

5. Fujitsu' warranty and liability disclaimer, if Software is sold and delivered by Reseller

If you acquire the Software directly from an authorized reseller (hereinafter "Reseller"), the right to install and use the Software may be subject to additional software license conditions agreed upon between you as the licensee and the Reseller.

In all cases of an authorized software resale, the Software is sublicensed and made available to the licensee directly by the Reseller. In such cases, Fujitsu is not a contractual party of the software license agreement between you as the licensee and the Reseller, as far as the procurement of the software licenses are concerned. Legal claims in connection with the software licensing can therefore be asserted only on the basis of the agreements with the Reseller. Under no circumstances, however, will the respective scope of the license for you as the licensee exceed the scope of the license as specified in sections 1, 2, 3 and 4 of this Agreement.

Subject to mandatory legal regulations, particularly those governing liability and/or warranties, which cannot be excluded in connection with end user license agreement regulations and with reference to your claims against the Reseller, Fujitsu disclaims all warranties for the Software, if acquired from a Reseller, in this Agreement. For the same reason, Fujitsu disclaims any and all liability/claims for any violations of third parties' rights as well as any implied warranties for the Software's marketability and its suitability for a particular purpose. This disclaimer of liability does not apply in cases of willful or malicious behavior by Fujitsu.

In this Agreement, Fujitsu grants no warranties of any kind, either express or implied, if you acquired the Software directly from a Reseller.

6. Disclaimer of liability with respect to shareware, freeware and/or open source software components

6.1 The Software may contain freeware or shareware which Fujitsu received from a third party. Fujitsu paid no license fees for the use of this freeware or shareware. Accordingly, you are not charged any license fees for the use of the freeware or shareware. You recognize and accept that Fujitsu therefore grants no warranties with respect to such freeware or shareware components and does not assume any liability in connection with the ownership, the distribution and/or the use of the respective freeware or shareware.

6.2 The Software may also contain open source software components that were developed according to the "open source model" and which are distributed exclusively on the basis of the GPL terms and conditions (General Public License: <http://www.gnu.org/copyleft/gpl.html>) or other standard open source license terms and conditions applicable to the respective open source software components at the time of their dissemination. You recognize and

accept that the licensing of such open source software components is governed exclusively by the above-mentioned GPL terms or by the conditions which are otherwise included with the open source software components. Fujitsu receives neither license fees nor any other compensation for the delivered open source software components. As far as Fujitsu or a third party receives any compensation in connection with open source software components, it is received exclusively for additional delivery items and/or services.

Because of the special nature of the development and distribution of open source software components, Fujitsu assumes no express or implied liability for such components and excludes any kind of warranty for such open source software components, particularly in connection with missing specifications, lack of functionality, programming errors or any other malfunctions, except in case that the open source software components are embedded in the Software and are essential for the function of the Software.

7. Liability of Fujitsu

7.1 Fujitsu shall be liable in accordance with the stipulations of applicable law in cases of (i) negligently or intentionally caused personal injury (injury of life, body or health), (ii) strict liability, in particular liability under the product liability law, (iii) gross negligence, willful conduct, fraudulent misrepresentation, and (iv) whenever a limitation of liability is legally prohibited.

7.2 Unless otherwise agreed with Fujitsu, any further liability of Fujitsu for damage claims shall be excluded, disregarding the cause of the claim (contractual agreement, negligence or faultless liability, equity or other circumstances) and the type of damage (in particular but without limitation damage to or loss of other property or equipment; business interruption or lost revenue, profits or sales; unavailing expenses; loss of information and/or data; damages arising from third-party claims; any special, incidental, punitive, indirect or consequential damages).

7.3 The conditions of this section 7 are not meant to change the burden of proof to your detriment.

8. No High Safety Required Use

You acknowledge and agree that the Software is designed, developed and manufactured as contemplated for general use, including without limitation, general office use, personal use, household use, and ordinary industrial use, but is not designed, developed and manufactured as contemplated for use accompanying fatal risks or dangers that, unless extremely high safety is secured, could lead directly to death, personal injury, severe physical damage or other loss (hereinafter "High Safety Required Use"), including without limitation, nuclear reaction control in nuclear facility, aircraft flight control, air traffic control, mass transport control, medical life support system, missile launch control in weapon system. You shall not use the Software without securing the sufficient safety required for the High Safety Required Use. In addition, Fujitsu shall not be liable against you and/or any third party for any claims or damages arising in connection with the High Safety Required Use of the Software.

9. Export Controls

Due to its components as well as the nature or purpose of these components, the export of the Software or parts of the Software may be subject to official or regulatory approval. In cases where the Software or parts of the Software is intended for redistribution or export, you are obliged to get all approvals and authorizations required to comply with all applicable export regulations.

The Software or parts of the Software may not be redistributed or exported if there is reason to assume that the Software or parts of the Software will be used in connection with nuclear, chemical or biological weapons or for missile technology. Furthermore, you may not provide the Software or parts of the Software — or have it provided indirectly — to such companies or persons who are listed in the applicable sanction lists issued by the European Union, the German Federal Government, US export authorities or any other relevant country, e.g. European Sanctions List, Denied Persons List as well as any other valid advisory notices from the appropriate authorities as amended from time to time.

Under no circumstances is Fujitsu obligated to provide any software, patches, updates or upgrades, or to fulfill any other contractual commitments if this would be a violation of the applicable export regulations of the Federal Republic of Germany, the European Union, the United States of America or of any other affected countries.

An infringement of the provisions in this section shall be considered as a fundamental breach of this Agreement.

10. Data Protection

10.1 You agree that Fujitsu and/or its licensors may collect, process, and use technical information (anonymized) and limited personal data (names, business contact details) for business purposes, which are provided for you in the context of software-related maintenance and support services. By providing data or information to Fujitsu, including personal data or information, you hereby consent to Fujitsu being permitted for product or service purposes in the European Union (or in any other country in which Fujitsu operates is) to use, secure or process this data or information. You agree to provide any notices, obtain any consents or otherwise establish the legal basis necessary for Fujitsu to access and process personal and other data as specified in this Agreement.

10.2 Fujitsu will use personal data exclusively for the stated purposes and will not otherwise process, store or pass them on. For any and all data processing by Fujitsu the corresponding Fujitsu Privacy Policy

<https://www.fujitsu.com/de/about/resources/privacy/> applicable at the time processing shall additionally apply. If and to the extent that your personal data is collected and processed, the corresponding detailed information as set out in Art. 13 and 14 GDPR will be made available in the context of the respective download- or installation process.

11. Miscellaneous

11.1 If any term or condition in this Agreement or any other contract that is subject to the terms and conditions of this Agreement turns out to be invalid or unenforceable (partly or in full), the validity of all other terms and conditions remains unaffected, unless complying with the remaining terms and conditions would represent an unreasonable hardship for either contract party, even with the application of applicable legal regulations to close the legal gap.

11.2 If you do not pay the license fees due and/or if you do not comply with essential terms and conditions of this Agreement, Fujitsu reserves the right to cancel the license. In case of such cancellation, you must immediately return and/or destruct any and all copies of the Software in your possession and confirm the complete return [of the copies of the Software] and/or the destruction of these copies in writing.

11.3 Neither you nor Fujitsu shall be liable to the other for the non-performance or infringement of contractual obligations (with the exception of payment obligations) to the extent that such non-performance or infringement is due to force majeure. "Force majeure" means in particular wars, civil wars, disasters, acts of terror, epidemics, quarantine, governmental action, labor disputes, fire, power outage, failure of telecommunication lines and external attacks on IT systems that cannot be prevented with technically and economically reasonable expense, using proven state-of-the-art technology

11.4 Any and all modifications and/or amendments to the license terms and conditions of this Agreement are only valid if they are made in writing.

12. Applicable Law and Place of Jurisdiction

12.1 This Agreement is governed by the laws of the Federal Republic of Germany without regard to its conflict of laws principles. The United Nations Convention on Contracts for the International Sales of Goods shall not apply to this Agreement.

12.2 The place of jurisdiction with regard to all disputes arising out of or in connection with this Agreement is Munich, Germany.
